

# Clinical supervision for school counsellors & welfare staff

Well-supported and appropriately supervised wellbeing staff are better able to function and manage within school environments.

Our team of experienced clinical supervisors can provide expert clinical supervision to support these specialised staff within school and university settings.

We offer both individual and group clinical supervision. Clinical supervision is available to any school psychologist, school counsellor, welfare support or wellbeing staff.

Supervision can be delivered on-site at a school or at any of our local branches across Victoria. Our supervisors are board-endorsed with expertise in child safety regulations, mandatory reporting, and APS codes of ethics in mind - covering legal and ethical actions by a school counsellor working in a school system.

✓ Regular clinical supervision

✓ One-off debriefing support

✓ Periodic case consultation / clinical advice
